

PROMOTING HEALTHCARE WITH INNOVATIVE SOLUTIONS

شركة تميز الرعاية الطبية
Excellence Medical Care Co.

MISSION

We Are Eager To Offer Premium Quality Products And Solutions That Match Health Care Provider's Needs To Make Work Environment Comfortable, Safe And Simple.

VISION

To be a leader and preferred brand of healthcare industry in Saudi Arabia and the Gulf region.

About us:

EMC was established in 2013 to be an evolving key partner in the Saudi health care market.

We have been working enthusiastically to ensure providing excellent customers service and fulfill the market needs.

Our commitment to be a leading and preferred healthcare distributor in the market through value-centered business practices, our strategically-selected global partners, and care-oriented approach towards our clients can significantly impact the bigger picture of healthcare in the region.

Over the past years Excellence Medical Care Ltd, earned a solid reputation in the public and private sectors based on trust, commitment, reliability, transparency and strong relationships.

Today, we can proudly say that a lot has been achieved and we shall continue to accomplish more.

Infection Control

1. DACH Protective Clothing is an owner-managed, medium-sized company based in Bietigheim (Baden) and specialized in the development, production and distribution of protective clothing. We are one of the leading companies in the field of disposable protective clothing in Germany and export worldwide.

2. OXY'PHARM was set up in 2003 from the will of two brothers, Arnaud ROULEAU, an engineer from the Ecole Centrale de Paris, and Thierry ROULEAU, a Doctor of Pharmacy, to commit themselves to sustainable development. This duality explains the activities of the company which manufactures and distributes biological materials and products for automated surface disinfection as well as for insect disinfestation. The concept of biological disinfection (NOCOLYSE) was created from this combination

Anaesthesia & Respiratory Therapy

1. With over 30 years of experience in the field of respiratory care, Int'Air Medical has today a worldwide reputation and is well known for its high quality.

Int'Air Medical develops, manufactures and markets single use products in different fields: anaesthesia, intensive care, oxygen and aerosol therapy. The ISO 13485 and is certified by LNE G-MED, notified body.

2. We develop UESCOPE® video laryngoscopes to promote the new standard of airway management and intubation. With advanced video technology and ergonomic design, UESCOPE® is ideal for regular and difficult tracheal intubations in adult and pediatric patients. This is achieved through our unrelenting effort in providing high quality, affordable products to our customers. If you are thinking of switching from conventional laryngoscope to video laryngoscope but worry about the initial capital investment and recurring running cost, we're here to make it a success.

3. Established in 1981, Long Life Surgical Industries has been serving the surgical industry with Care and Dedication. We manufacture Laryngoscopes and Surgical Instruments. We deal in both Single-Use and Re-Usable products.

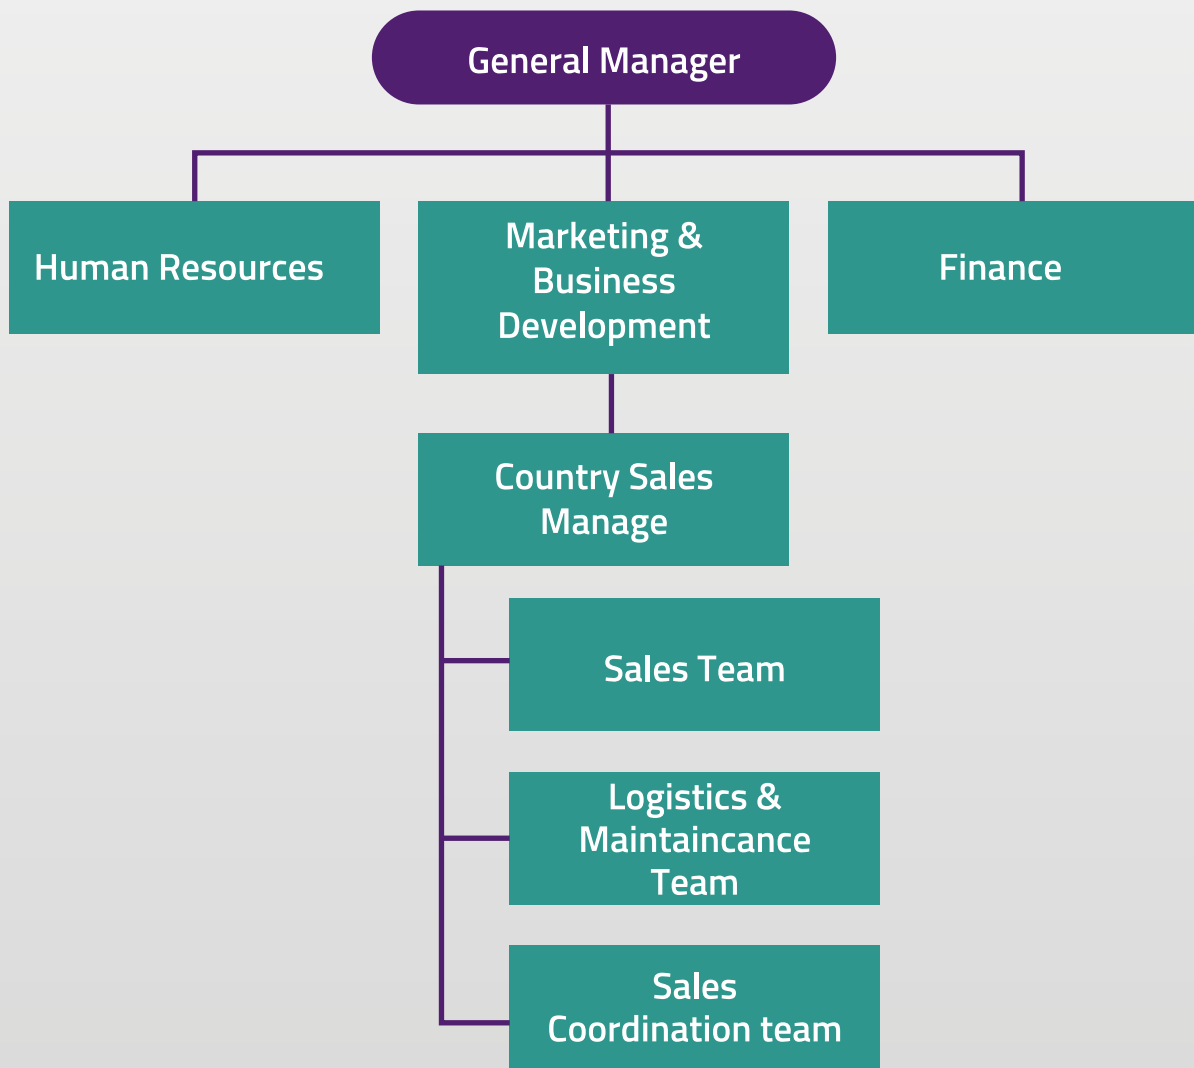

4. Established in 2001, BeneCare Medical are worldwide providers of Casting Materials, Orthopaedic Footwear, upper and lower limb Orthotics, Low Temperature Thermoplastics and associated devices and products to the UK market and globally via our international partners.

5. The brand Ortholand was created with the intention of manufacturing high qualified orthopedic supports, designing the products for the users with maximum utilization and offering them to market with best prices.
