

OUR CONCEPT

The Nocotech concept is based on the coupled action of a liquid product (Nocolyse or Oxyppy products range) and a diffusion device (Nocospray or Nocomax devices range) for the treatment of a room air and surfaces.

NOCOSPRAY

NEW GENERATION
WITH TOUCHPAD
SETTING

treats
volumes from
10 to 1 000 m³

NOCOMAX

DEVELOPED
FOR INDUSTRY

treats
volumes of up to
20 000 m³

OUR ADVANTAGES

ECONOMICAL,
FAST ACTION

Automated system where
1ml of product is sufficient
for daily treatment of 1m³.

LIGHTWEIGHT
AND PORTABLE

The Nocospray is a device for processing
rooms with volumes from 10 to 1000 m³
(with one device) and weighs only 6Kg.

FOR DISINFECTION:
FULL ACTIVITY SPECTRUM

Bactericidal, virucidal, fungicidal and
sporicidal activity, up to 6-LOG reduction.

NORMS

Validated according to many norms,
including NF T 72281 standard (2014)

SAFE

Non-allergenic products without
risk for the environment
or for humans.

BEST QUALITY-
PRICE RATIO

Proven effectiveness with costs

Quality mo

Nocotest

Colorimetric strips to check that
the product has been distributed
